ORD-1692-78

24 OCT 1978

MEMORANDUM FOR: Chairman, Security Committee

25X1

SUBJECT : Security Bar Specifications

25X1

1. Attached is the recommendation of the "Bar Working Group" of the Research and Development Subcommittee for your consideration. Basically, a relaxation in the specification for the material used for window bars for the protection of SCI material is recommended. The

in obtaining the originally specified material does not appear to be justified.

25X1

2. Should you have any questions we will be happy to discuss them with you.

25X1

Director of Research and Development
